COLEEN MOORE STARS IN PLAY AT RICHMOND

"Twinkletoes," First National's screen version of Thomas Burke's most famous tale of Limehouse, the world's most noted and picturesque waterfront slum, brings Colleen Moore to the Richmond Theater silver-sheet today and tomorrow in an entirely new type of role, and a new character.

To play the Burke heroine correctly, she appears in golden-blond, curly hair and those who have seen her declare Colleen has surpassed her saucy self.

Kenneth Harlan plays opposite her in the role of a young London pugilist, and other fascinating characters from Burke's pages come to life at the touches of Gladys Brockwell, Warner Oland, Tully Marshall, Julianne Johnston, Lucian Littlefield and John Phillip Kohl.

The screen play deals with the sweet love affair of the heroine, a headline dancer at a quayside music hall, and her fighter-sweetheart, and with the many menaces that surround them.

The suspense-filled plot played against the mysterious, fascinating background of crooked, narrow streets and the teeming humanity of the world's most famous waterfront slum keeps the spectator on the edge of his seat throughout. Mingled with the thrills and pathos is a plentiful sprinkling of bright comedy, and there is a thoroughly happy ending.

Other film features include "Napoleon, Jr.," an animal comedy, and "Prizma," the screen magazine.

Richard Dix Stars At The California

How would you feel if you were a rich young bachelor with an ideal, and likewise a legacy, that you couldn't collect until you got married?

"Easy," you say, I'd get married! But you've forgotten the ideal. You are a generous young fellow who has a suspicion that all women care only for money, and you are looking for romance, for a woman who can love you, and not what you can give her. There is your ideal, and the closest you've ever approached it is by looking at the shadow of a girl on the window of a room in a cheap lodging house across the back courtyard of your home. That's as far as you've become acquainted. You've never even seen her face. And then your uncle Howard who has heard exaggerated accounts of parties in your apartment expresses his disapproval by refusing you any more money till you get married. And the situation is desperate.

There's the situation in which Richard Dix finds himself in his new Paramount starring vehicle, "Paradise for Two," with Betty Bronson as his leading lady. And then he takes a chance and tries a ruse, falls in love with a girl and nearly loses her. And then what happens...? See for yourself! It's worth it! "Paradise for Two" is running today and tomorrow at the California Theater.

Other features on the same program include "Hubby's Quiet Little Game," a Mack Sennett comedy; "A Pup's Tale," a cartoon story; "International News," and Larry Canelo at the organ.

FIRST TILT IN WAGE DISPUTE BY COWELL CO.

MARTINEZ, Feb. 15.—Pleading res adjudicata, the civil counterpart of the "once in jeopardy" rule of the criminal courts, the Cowell Portland Cement company this morning won its first round in the battle with the California Labor commission over the payment of wages at the Cowell cement works.

When Judge J. C. Needham of Modesto, presiding for Judge A. B. McKenzie opened the trial this morning by which the Labor commission seeks to have the Cowell firm fined over \$4,000 for failure to pay wages semi-monthly, Attorneys Treadwell and Rodgers and Bray for the Cowell firm pleaded res adjudicata (the thing adjudged) maintaining that the misdemeanor criminal action in Justice Frank L. Glass' court by which V. H. George, manager of the company was prosecuted for alleged failure to comply with the wage payment rule, having been decided by a jury in favor of George, that that decision acted as an estoppel to further proceedings along this line inasmuch as the Cowell firm supports George's defense.

The present civil action is, attorneys for George and the Cowell firm maintain, an attempt to collect a fine for an alleged offense of which the managing head of the Cowell firm has been already acquitted.

Attorneys for the Labor commission were unable to find legal authorities to combat this contention and Judge Needham continued the matter sine die and without prejudice.

Nearly 1400 pupils in other portions of the building were thrown into a near-panic by the blast, but order was quickly restored. Fire which followed the explosion was quickly extinguished. Milk From Canada Will Be Inspected

(By Universal Service)
WASHINGTON, Feb. 15.—Over the protest of New York City, President Coolidge today signed the Lenroot-Taber Canadian milk inspection bill. The measure will require Canadian milk producers who ship their products into the United States, to conform to health inspection standards similar to those required of American dairies. President Coolidge signed the bill after long conference at the White House with Senator Lenroot, who urged its enactment as a vital health measure. Senator Lenroot denounced New York's opposition as "unsound and inaccurate."

CHESEPEAKE TO BE BRIDGED

(By Universal Service)
WASHINGTON, Feb. 15.—Bridging of the broad Chesapeake Bay, to unite the entire eastern shore of Maryland and Virginia with Baltimore, other points on the western shore of Maryland, and Washington, was authorized in a bill signed by President Coolidge today.

The bill authorized the Chesapeake Bay Bridge company to construct a span from Back River, near Baltimore, to a point in Kent country between Rock Hall and Tolchester. Cross-bay transportation is now limited to steamers and ferries. Motor and rail traffic from the eastern shore must go far to the north to reach Baltimore.

Griffin stated that he did not realize that he had struck any one and a companion riding with him at the time substantiated his assertion. Griffin was taken into custody immediately after the accident and in the confusion the driver of the other car escaped.

Tia Juana Races Stopped By Rain

(By Universal Service)

TIA JUANA, Mex., Feb. 15.—There will be no further racing at Tia Juana until transportation facilities are repaired. Heavy rains which have been the order now for four days and which were still continuing unabated with no sign of a let up today washed out both the railroad line and the two highways between San Diego and the race track.

President James U. Coffroth has issued this announcement:

wards; K. Swenson and L. Woodruff, guards and Bob Wilson, center.

"For the reason that transportation facilities to the track have been crippled the Jockey club announces a temporary suspension of racing. The racing will be resumed when the highways are again passable."

The track itself suffered no damage, owing to the precautionary measures taken some years ago by the club. The track is situated in the bed of the Tia Juana River, which is dry for eleven months out of the average year. Levees were built around the track six years ago following a bad wash-out.

One
grand little
cigarette—
I made
it myself with
P.A.

TUNE-IN on this little talk about a home-made cigarette in which you play the leading role. (That has all the ear-marks of a pun, but I'm perfectly serious.) Here's the low-down: First you get some Prince Albert and the makin's paper. Then you put a pinch of P.A. in a paper and roll.

When you get that fragrance of good old P.A., you can hardly wait to taste a cigarette made with that kind of tobacco. Then you light up. You are not disappointed. In fact, it tastes better than you dared hope. Cool as rain. Sweet as maple sap. Mild as milk, but with plenty of "body."

A cigarette is only as good as the tobacco it's made of. That gives a cigarette made with P.A. a running start. For, P. A. is the best tobacco that ever snuggled in a makin's paper. It is crimp-cut and stays put while you're rolling it. You'll make 'em fast and frequent with this tobacco.

Do you ever smoke a pipe? Prince Albert is prime for pipes too. It doesn't bite the tongue or parch the throat. To bring the best out of a pipe, put the best into it — P.A. Whether you enjoy a pipe or not is all a matter of picking the packing. Get some P.A. today. Smoke it both ways.

PRINCE ALBERT

—no other tobacco is like it!

P. A. is sold everywhere. And always with every bit of bite and punch removed by the Prince Albert process.

BRIDGE SPANS TO BE LIFTED IN PLACE SUN.

Weather conditions permitting, the first of two 450-foot, 750-ton spans for the new Carquinez bridge across the straits at Vallejo will be swung into place Sunday. It was announced yesterday by the bridge celebration committee.

But while the weather may have a very important effect on the operation, it will not be in the same way that weather ordinarily affects such events. In this case it is because a slight breeze, a turn of the tide or a sudden fog bank would likely prove disastrous to the placing of the span, according to engineers.

As a safeguard against unfavorable conditions, the bridge engineers have arranged for the establishment of a government weather bureau sub-station at the bridgehead to watch for any variation.

The span to be placed Sunday has just been completed on the Crockett side of the straits. It will be towed on two steel barges to a point directly under its position in the bridge, and will then be lifted by sand counterweights.

The second span is now 93 per cent completed, and is expected to be swung similarly into position in the near future.

One Hundred New Members Goal Of Chamber Commerce in Drive

Chamber of Commerce week is going over with a bang! That's the encouraging report that comes to chamber of commerce headquarters from George Thornton, chairman of the membership committee, in charge of the field work.

The forces of civic progress in Richmond are rallying to the support of the chamber of commerce. The slogan "Join today" flung out by the committee in the two big banners that stretch across Macdonald avenue at Ninth street and at Twenty-third street, is proving effective.

The chamber of commerce as "a life saver to Richmond" is being recognized.

Good citizens of Richmond realize that no community can grow faster than its chamber of commerce and are responding to the appeal to sign membership applications in the one organization whose sole duty, and purpose is to promote the civic, industrial and business welfare of the city.

P. M. Sanford, president of the organization, is highly pleased with the ready response of Richmond citizens to the appeal of the chamber of commerce. Said Sanford yesterday:

"Our citizens realize that the chamber of commerce is unselfishly and conscientiously serving the community to the best of its ability."

"They know that the chamber of commerce stands for civic progress without political prejudice or favoritism."

"The chamber of commerce answers a thousand and one questions about Richmond every month. It is the meeting ground of every new industry seeking a location in Richmond. It is consulted about every proposed civic improvement because in the chamber of commerce are found the leaders in our community life. It stands ready at all times to lend its support to those measures and those men who are working unselfishly for Richmond's best interests. I believe it a duty of every good citizen to be a member of the chamber of commerce."

Here is what other leaders in the chamber of commerce think of the work of the chamber and reasons why every property owner, every merchant, every business and professional man and woman should hold membership in this organization:

Joseph F. Brooks, director of the chamber of commerce says: "Trade associations all over the country have emphatically proven their value."

"They consist of industries which are engaged in a common line of work and which have common problems."

"They have found that united effort is far more effective than individual effort."

"In exactly the same sense, a chamber of commerce must function."

"The greater good of every resident of Richmond depends upon the greater good of the community. The chamber of commerce is the only body organized to promote the greater good of the community."

Goal Is 100 New Members

The membership committee has set a goal of 100 new members for Chamber of Commerce week. That the goal will be reached is the confident hope expressed by

Chairman Thornton in charge of the week's activities. And Thornton pays high tribute to his fellow workers on the committee who are so unselfishly giving their time and energy to aid the chamber of commerce and in aiding the organization, aiding their home city.

These men include E. B. Bull, E. P. Vaughan, Joe Reed, Jesse Hitchcock, Bill Chapin, Frank Mero, Henry Solto, Roy Eakle, Al Paulsen, T. G. Gray and others. The committee meets at 6 o'clock this evening at the Hotel Carquinez.

ENGINEERS TO SURVEY SITE FOR BAY SPAN

The engineers will also select a site for the bridge and the type of bridge best suited for trans-bay traffic and will investigate the bridge franchises now on hand.

\$1550 TOTAL IS RESULT OF SALE OF SEALS

A total of \$1550.57 was contributed by Richmond people to the Christmas Seal fund of 1926, Mrs. Marie L. Ogborn, who conducted the drive, announced yesterday. This represents a large increase over the amount sold in 1925, \$1200 being raised at that time.

Out of this sum part is used to provide milk to undernourished and tubercular children in Richmond, and part for the maintenance of the Sunshine camp during the summer where poorly developed children were brought back to health.

A number of people who received stamps have neglected to return either stamps or money. Mrs. Ogborn reported. It is asked that either the stamps or the money be returned in order that the year's report may be closed.
